

PROBLEMS GETTING PAID AT WORK?

STOP
WAGE THEFT!

www.WorkersActionCentre.org

We work hard, but too often we don't get paid.

"I worked at a cleaning company for 6 months. As soon as you start, they immediately tell you that they will pay less than minimum wage. They pay you as a self-employed person even though you are an employee.

I kept asking to be paid according to the law, but the company does what they want. The government has to make these kinds of companies follow the law!"

~ Lillia

of wage theft.

When employers steal our wages

What is wage theft?

Employers steal our wages when:

- We are not paid for all the hours that we work, or we are not paid at all
- We are not paid minimum wage, overtime pay or for other legal rights
- We are wrongly treated as independent contractors or self employed
- When we are charged a fee to get a job

Wage theft is unfair, affects our families and communities and keeps us in poverty!

How can we stop wage theft?

We can stop wage theft when we work together. We have done it before!

To stop wage theft the government must:

- Make all employers follow the law in all workplaces
- Update labour laws to protect all workers
- Increase the minimum wage to bring workers out of poverty
- Ensure equal status and protection for all workers regardless of immigration status

break the law – this is wage theft!

JOIN OUR CAMPAIGN!

**Working together, we can
put an end to wage theft.**
